

Omar HAFEZ

Data Science Student

Beirut, Lebanon | Email: omarhafezcoc@gmail.com | Phone: +961 81 170 937 | GitHub: github.com/hafezomar

Objective

First-year Data Science student with a 4.0 GPA, building practical skills in Python, statistics, data analysis, and visualization. Seeking opportunities to grow through internships, technical projects, and hands-on learning experiences.

Education

Bachelor of Science in Mathematics (Data Science Track)

Universite Saint-Joseph (USJ), Beirut | Expected Graduation: 2028 | GPA: 4.0

Relevant Coursework: Descriptive Statistics; Linear Algebra and Discrete Mathematics; Calculus I, II; Computer Programming I, II (Python); Internet Programming (HTML, CSS, JavaScript)

Technical Skills

Programming: Python (Intermediate), HTML (Intermediate), CSS (Intermediate), JavaScript (Basic), C++ (Basic), SQL (Basic)

Data Science: Data Cleaning (Intermediate), EDA (Basic-Intermediate), Matplotlib Visualization (Basic-Intermediate), Data Storytelling (Basic), Statistics (Basic-Intermediate)

Python Libraries: Pandas (Intermediate), NumPy (Intermediate), Matplotlib (Intermediate)

Web Development: Responsive Design (Basic), DOM Manipulation (Basic), Static Websites (Intermediate)

Tools: GitHub (Basic), Spyder (Intermediate), VS Code (Basic), Excel (Basic)

Projects

Video Game Sales EDA

Python, Pandas, NumPy, Matplotlib | GitHub: github.com/hafezomar/video-game-sales-eda

- Built a self-directed EDA project using a Kaggle video game sales dataset with around 16,600 rows.
- Loaded, inspected, and cleaned the dataset, including missing publisher values and missing release years.
- Avoided misleading year imputation by only removing missing release years for year-based analysis.
- Created groupby summaries and Matplotlib visualizations to analyze sales by platform, genre, publisher, region, and release year.
- Documented key findings, limitations, and project reasoning in a GitHub README.

Vertex School Website

HTML, CSS, JavaScript

- Built a static frontend website for a fictional school as an academic group project.
- Led most of the HTML, CSS, and JavaScript implementation, including layout, styling, and basic interaction.
- Created multi-section navigation, gallery, contact section, social links, hover effects, and responsive layout rules.

Achievements

- Maintained a 4.0 GPA for 2 semesters so far.
- Lebanese Baccalaureate in General Sciences: 17.36/20.

Soft Skills

Analytical Thinking | Problem Solving | Fast Learner | Teamwork

Languages

Arabic (Native) | English (C1) | French (Intermediate)
